LinkedIn: linkedin.com/in/siva-suriya-b-990438381

Professional Summary

Detail-oriented front-end developer with hands-on practice building responsive, API-driven web applications using React.js, JavaScript, HTML5, and CSS3. Skilled in Python fundamentals and currently deepening backend expertise through Django and database management.

Education

B.Tech Computer Science and Engineering

PRIST University College, Thanjavur

2023 - 2027 | Final Year

Skills

Frontend	HTML5, CSS3, JavaScript, React.js, Responsive UI
Tools	Git, GitHub, Vite, REST API Integration
Programming	Python, C Basics, C++ Basics
Currently Learning	Django, Database Management

Projects

NewsHub Application - Dynamic news aggregator built with React that fetches and renders real-time international news via third-party REST APIs.

Movie Search App - Interactive media search tool that queries external APIs based on user input and displays real-time movie details.

Career Objective

To secure an entry-level Front-End or Full-Stack Developer position where I can apply React, JavaScript, Python fundamentals, and API integration skills while contributing to real-world software projects and expanding Django and database management expertise.

Temporary portfolio resume. Replace this file with the final resume when ready.
